I Grow the Best — Discard the Rest

Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1955. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll Certificate Winners or has proven with us to be truly outstanding. Not only that, but the varieties offered are reliable in every respect, good growers, fine producers, insect resisting foliage and most of them are of large size blooms, and true prize winners. If you are interested in large size dahlias, you surely are not going wrong by ordering from us. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. You are under no obligation to buy, but welcomed and I will be as happy to see you as you will be to see this magnificent collection of gorgeous massive flowers in all of the colors, shades, and tints of the rainbow.

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sales as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

A WORD ABOUT OUR DAHLIA PLANTS

We only offer plants of the most expensive varieties. You can secure plants at a much reasonable price. Our plants are made from base cuttings, and aren't over-propagated. We send out fine sturdy plants, well packed and GUARANTEED to reach you in perfect condition. If you take proper care of them you will not be disappointed. Our customers who have purchased plants from us in the past years have been very well satisfied. Not only have our plants produced wonderful blooms for them, but also have secured good clumps. Plants will be shipped from May 1st on. If an early shipment is required, kindly advise.

DIRECTIONS OF REACHING PARRELLA DAHLIA GARDENS

Customers can easily reach our place by taking the East Side Subway (Lexington Avenue): the train that is marked "241st Street & White Plains Road." Get off at East 180th Street and change for the SHUTTLE which passes our gardens. Get off at BAYCHESTER AVENUE. The distance between 180th Street and Baychester is only five stations. Our Gardens are only two blocks from Baychester Avenue. Inquire at Station, anyone will direct you to our Gardens. The fare is only 15 Cents.

BY AUTO: Follow the Boston Post Road to either ELY AVENUE or GRACE AVENUE. Grace Avenue is more convenient for your parking space, turn EAST here five hundred feet and you are at the center of our Gardens.

The
PARRELLA
DAHLIA GARDENS

*presents the following introductions from our Gardens and
other Growers, for the Season of 1955*

SEE FLOWER GROWER HONOR ROLL

MARGARET DUROSS (Fuchs-Parrella)—I. D.—A large, auroelian yellow, flushed scarlet, almost orange. Size 11" x 5" or larger. Cane stems 12"-15" hold blooms facing. Bushes are vigorous with healthy foliage and grow about 6 feet. Good bloomer early and late. **Root \$15.00 net, plant \$5.00 net.**

NOTE: Margaret Duross is named in honor of the garden editor of the N. Y. Journal American. It has been placed on 3 Honor Rolls and not two as incorrectly shown in Honor Rolls in Flower Grower.

YELLOW MASTERPIECE

YELLOW MASTERPIECE (Murphy-Parrella) F. D.—Rich, soft, clear, empire yellow. Petals roll back to stem forming a large flower 11" x 7" or larger, with excellent keeping qualities. The 8"-10" stems hold flowers facing. Unusual strong, thick foliage for a yellow. A splended free blooming garden plant that seemed to intrigue our many visitors with its size and beauty and many put it down as a "must."

Root \$15.00 net

Plant \$5.00 net

FLYING SAUCER (Clapp-Tilton) — This beautiful big semi-cactus was originated by Mrs. Florence Clapp of Campbell, Virginia. It scored certificates at three A.D.S. Trial Gardens in 1954, Ault Park, Cincinnati, Ohio; Farmingdale, Long Island; and East Lansing, Mich. It is on the Eastern Flower Grower Honor Roll. Color is mallow purple, lavender for $\frac{2}{3}$ area of face, $\frac{1}{3}$ at center white. Size is 12 by 6 inches; bush 4½ feet; good stems and substance. Won A.D.S. Derrill Hart Medal 1954 for highest average score for "A" seedling in three Trial Grounds. **Plants \$7.00 net**

LLOYD GEORGE (Miller-Tilton)—A big informal decorative, light blend, porcelain rose, blended with aureolin yellow. Size 11 by 6 inches or larger. Originated by Mr. and Mrs. Frank Miller. Named after their two sons, Lloyd and George. Won A.D.S. Seedling Sweepstakes at Long Island Show, 1954. Bush 4½ feet. Blooms held side and at slight angle. Good keeper, cut. You can win with this big one in A.I.D. class. **Plants \$4.00 net**

If you like to have your garden looking beautiful during the summer and fall you will have to give them some thought now.

MRS. ALTON B. PARKER, A.-I.D.

MRS. ALTON B. PARKER (Tomozak-Parrella) I. D.—Golden yellow flushed Dutch vermillion. Size 10½" x 5". The 9-12" cane like stems hold flowers facing. Foliage is dark green and vigorous, making a strong plant that grows about 4½ feet.

Root \$15.00 net Plant \$5.00 net

FUJIYAMA (Endow-Parrella)—I. D., Variegated—Base color Indian yellow. Lined, dotted and speckled with cardinal red. Some petals are half red lengthwise. Attractively colored blooms are held facing on good cane like stems. Good grower and good bloomer. Size 7½" x 4".

Root \$10.00 net Plant \$3.00 net

DONALD VAN DEMARK (Parrella)—F. D. A very large, deep, formal bloom about 11" x 6", some blooms larger. Color purplish red or wine red, with darker shadings. Good bloomer early and late with excellent stems. Won gold premium in seedling class at Long Island Show in 1954.

Root \$15.00 net Plant \$5.00 net

CHEROKEE BEAUTY (Ricks-Dahl 86A), FD, M, Bloom 10 x 6, Bush 3½ ft. An outstanding Formal Decorative of a pleasing begonia pink. Clearer and more intense pink than Kelvin. Has distinctive foliage and is a wonderful propagator of green plants. Naturally a vigorous grower and does best in regular garden culture. Extra feeding tends to make the stems shorter. Side pruning gives good stems on first flowers and lateral blooms will take care of themselves. So unusual in color and size you won't want to miss it. Certified at East Lansing and Cincinnati Trail Grounds and on all 4 Honor Rolls, and Webb's Eastern Review.

Plant \$5.00

THE ORANGE (Campbell-Parrella)—S. C. Size 7½" x 3" in flame color. Stems hold blooms slightly up. Bush about 5 feet. This "B" size flower will score high.

Root \$10.00 net Plant \$3.35 net

PREAS' PRIDE (Preas-Ruschmohr) A—S.C. Bicolor, Purple, White Tips. A most beautiful bicolor. A sport of popular Jane Lausche. Instead of lavender as in Jane Lausche, this sport is a deep orchid purple with white tips. Comes true, with deep purple and is white tipped 90 per cent of blooms. Dr. Preas has tested this one for 3 years and rogued out all lavender throwbacks to original parent. Won tri-color as best S.C. in the Long Island show. Size 10 to 11 inches by 7 to 8 inches. Bush 4 to 5 feet. Plants \$5.00 net

NED SEYMOUR (Pennypack Gardens)—I. D.—"A"—Size 14" x 9". Color red-orange. Named for the Horticultural Editor of the American Home magazine. A dahlia that will be a sensation in your garden. A sturdy plant produces 4 giant flowers at one time. Show record—entered in competition at 10 shows and winner of 10 American Home Achievement Medals and 9 American Dahlia Society Seedling Sweepstakes awards with an average score of 87.8 points. Won in open competition as "Best of Show." A new dahlia destined to become very popular and set a standard for the next ten years.

Plant \$10.00 net

COVER GIRL (Hulin-Parrella)—F. D.

Mauve violet with generous white tips. Size of blooms 10" x 4½". Cane stems hold flowers on side. Bush grows about 4½ feet. Different and attractive.

TEN BRIEF SUGGESTIONS TO THE AMATEUR ON HOW TO GROW BETTER DAHLIAS

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

FLORENCE M. (Zourek-Parrella)

F. D.—A soft, pleasing shade of pink, veiled white, especially at end of petals, making a very attractive and appealing color. Back petals recurve to stem, forming a round, full, deep flower. Blooms are held high and facing on strong, wiry stems that hold up under rainy weather conditions. Blooms last long on the bush or when cut. This surely is a lovely flower of beauty and charm and a “must” for those who have seen it growing in our gardens. An early bloomer and good grower, attaining a height of about 4½ feet. Judges at American Dahlia Society Show in New York scored this variety 85.4. Size 7-8 x 5. This dahlia has been named for a teacher of the Yonkers, New York School System. A lovely lady who loves dahlias.

Dear Mr. Parrella:

Last year while I still lived in New York I bought some Dahlia Tubers from you which I grew in my yard and liked very much. I lived at 39 Valley Road in Larchmont. Now I have moved to the above address and would like to have some more Dahlias. I have a catalogue of yours, but it is packed with my books, etc., which won't arrive here before next week. It is warming up sufficiently now to be able to think of planting Dahlias. I am interested in the very tall and very large flowers. You picked out an assortment last year and I would be very appreciative if you would do the same for me again.

HOW TO GROW DAHLIA FROM SEED

There are many ways that dahlia seeds are started, and grown, on account of the different climatic conditions, and the length of the growing season, here in New York City, I have been getting wonderful results as follows: About April 1st, I select an open sunny location in my garden and spade this to a depth of about 8 inches and rake the soil until it is finely broken, and not lumpy, then with a hoe make trenches about 4 inches in depth and about 12 inches apart.

Then place a seed about every 2 inches apart in these trenches and cover with about one half inch of soil, water lightly and cover with about 2 or 3 inches of peat moss, as a protection against a slight frost or cold. About May 1st carefully remove the peat moss and in another week or two you will see the young dahlia plants breaking through the ground, add a little more soil to the trench and around the plants that are showing above ground, so that they will get better and stronger root formation. About June 1st many of these plants will be about 4 or 5 inches above the ground, showing two to three sets of leaves and the stems will be about the thickness of an ordinary match. They are then about the right size for transplanting.

In colder climates and where the growing season is not so long, is to start the seeds in boxes or flats about 20 inches long, 12 inches wide and 4 inches deep. Make 3 or 4 trenches about 2 inches deep and plant the seed about every 2 inches apart in these trenches and cover with about a half inch of soil. These seeds should be planted about 2 months before it is reasonably safe to transplant the young plants out into the open.

The box should be kept in a warm room and near a window that faces a sunny location. About 2 or 3 weeks later, they will be breaking out of the ground and when they are about 3 or 4 inches high, they should be removed from the box and transplanted into 3 inch flower pots, and on warm, sunny days, should be left out into the open to gradually harden, and when you believe that the time is right for their permanent transplanting as described above, then plant them as directed, and they will grow into strong, healthy plants, as good if not better than plants grown from tubers.

Of course if you have a greenhouse or a cold frame facilities, it will simplify matters by starting your seeds about March 15th and using the above last two paragraph principles.

DAHLIA SHEARS KAMPHAUSSOLINGEN DAHLIA SHEARS

Double cutting dahlia shear for dividing and trimming dahlia clumps. It is specially made for me by a German cutlery manufacturer with over 130 years of experience in making fine horticultural cutting tools. My shear embodies all the desirable points I have found in all the different makes I have used over the past 30 years. Now at last I can offer a shear that is especially designed to get at the hard-to-reach parts of the clump and so permit the cutting of the greatest possible number of eye-bearing divisions with least amount of effort. And when this work is done, the shears can, of course, be used for all kinds of general pruning.

Length 8¾". Weight 12 oz.

The price is \$7.00 postpaid.
